**What is Semaglutide**

Semaglutide is a new exciting medicine that is helping people lose weight and reach their ideal size. It's an easy-to-use, once a week injection that works by regulating food intake by reducing feelings of hunger. Semaglutide also helps you feel more full and satisfied after a meal by delaying gastric emptying.

**Benefits of Semaglutide Injections**

- Significant weight loss – typically 2-8 pounds per week (Results may vary)
- On average, patients lose 15% of body mass
- Helps you to look and feel beautiful
- Curbs the appetite to decrease calorie intake
- Leaves you feeling more full for longer periods of time
- Regulates blood sugar
- Requires only one treatment per week

A prescription for semaglutide injections is included, and you have the option of receiving weekly injections in our Med Spa office (for an additional charge) or having our staff teach you how to administer it on your own at home.
